

Selco^{oo}

The power behind cosmetics!

Nature & Science in perfect balance

Delivery overview

June 2026

About the content

How are you?

You are holding the new version of our delivery program. We are pleased that you find the time to learn more about our products. We are pleased to introduce our company Selco GmbH, the employees and our product portfolio to you.

The following delivery program gives an overview of our actives in alphabetical order together with efficacies. In a second overview all actives are sorted by application. This structure should help to find an effective solution for realization of your product concepts in a short time. In addition to the product descriptions given in this

delivery program we are offering on request detailed information about properties, efficacies, specification, toxicology and origin of each product. A phone call or an email is very welcome!

You can also find important information on our website www.gfn-selco.de.

Selco Company Profile

Foundation	Nov. 1997 by Michèle Lindner and Bodo Wilker
Location	Wald-Michelbach / Odenwald, close to Heidelberg
Product line	distribution of premium active ingredients representation of foreign producers plant extracts from own production
DIN ISO	certification conform to DIN ISO 9001:2015 since June 2016
Company rebuilding	2013 modernisation of both company buildings
Distribution	worldwide

Important to us

For a successful cooperation following aspects are important to us:

- A comprehensive **documentation** according to the current version of the **European Cosmetic directive**:
 - product information
 - efficacy tests
 - toxicological profiles
 - extensive statements about ingredients
 - BSE / TSE evaluation
- Realisation of your special **product requirements**:
 - approval according to COSMOS, ECOCERT or NATRUE standards
 - stabilisation of products with raw materials, which do not have to be declared as preservatives according to the cosmetic regulation
 - worldwide accepted preservative systems
 - innovative marketing concepts, with a strong trend to natural cosmetics
- **High flexibility** in all parts of the company
- **Customer oriented service** and highly motivated, qualified staff
- **Fast and reliable execution** of your requests
- **Quick response** to your needs and the requirements of the market

Selco products in alphabetical order and their benefits

Product name	INCI name	Appearance	Solubility	Use concentration	Benefits
<p>18-β-Glycyrrhetic Acid</p> <p>Mat.No. 7212</p>  <p><i>Vegan</i></p>	<p>Glycyrrhetic Acid</p> <p>Preservative: none</p> <p>Stabilizer: none</p>	white powder with typical odour	soluble in hot water, phenethyl alcohol and in thanol up to 0.6 %	0.5 - 1.0 %	<ul style="list-style-type: none"> • pentacyclic triterpene acid extracted from liquorice root • antiphlogistic • controls sebum release • acceleration of wound healing • soothes itching • antioxidant
<p>Adenosine</p> <p>Mat.No. 7370</p> <p><i>Vegan</i></p>	<p>Adenosine</p> <p>Preservative: none</p> <p>Stabilizer: none</p>	white or almost white crystalline powder	soluble in mixtures of water with either 5 % pentylene glycol, glycerin or propylene glycol at RT. At 50 °C up to 0.5 % soluble in water	0.04 - 0.5 %	<ul style="list-style-type: none"> • synthetic, organic compound that occurs widely in nature in the form of diverse derivatives • molecule consists of an adenine attached to a ribose • one of the four nucleoside building blocks of the DNA and RNA • reduces inflammations • reduces wrinkles and fine lines • enhances skin texture • increases hair growth and thickness • enhances skin night repair processes • helps to release stress • supports wound healing and skin repair
<p>AGSE (Activated Grape Seed Extract)*</p> <p>Mat.No. 7318</p> <p><i>Vegan</i></p>	<p>Vitis Vinifera Seed Extract</p> <p>Preservative: none</p> <p>Stabilizer: none</p>	dark red, purple powder	miscible with alcohols and glycols; insoluble in water or oils	0.1 - 1.0 %	<ul style="list-style-type: none"> • novel, proprietary botanical extract from red grape seeds enriched for Protein Phosphatase 2A (PP2A) activating flavonoids • ~5 times more potent than commercial grape seed extracts in promoting PP2A activity • combats skin aging, especially photo-aging • reduces skin damages due to free radicals and protects the skin against environmental stress • reduces inflammation (inhibits IL-6, IL-8 and TNFα cytokine release) • acts as an outstanding antioxidant • promotes collagen gene expression in dermal fibroblasts • supports wound healing

* = not available in every country

Product name	INCI name	Appearance	Solubility	Use concentration	Benefits
AGSE (Activated Grape Seed Extract) 10% L* Mat.No. 7350 	Propanediol, Vitis Vinifera Seed Extract Preservative: none Stabilizer: none	dark red-purple solution	insoluble in water or oils (solubilizer necessary); miscible with alcohols and glycols	1.0 - 10.0 %	<ul style="list-style-type: none"> novel, proprietary botanical extract from grape seeds, enriched for Protein Phosphatase 2A (PP2A) activating flavonoids 5x more potent than commercial grape seed extracts acts as an antioxidant, more potent than vitamin C and α-tocopherol acts as a natural coloring agent inhibits release of pro-inflammatory cytokines (IL-6, IL-8 and TNFα) reduces UV induced skin aging promotes collagen gene expression in dermal fibroblasts enhances elastin production minimizes stress and protects from environmental damages supports wound healing
Aloe Vera freeze dried gel powder 200:1 Mat.No. 7100  	Aloe Barbadensis Leaf Juice Powder Preservative: none Stabilizer: none	clear to off-white powder with an aloe odour, no peculiar smell	water soluble	0.2 - 0.5 %	<ul style="list-style-type: none"> polysaccharides from Aloe Barbadensis leaves quality certified by IASC content of Aloverose >= 80000 mg/kg excellent moisturizing anti-irritant improves skin softness and elasticity
Ammonium Glycyrrhizinate Mat.No. 7211  	Ammonium Glycyrrhizate Preservative: none Stabilizer: none	white crystalline powder with typical odour	water soluble	0.5 - 4.0 %	<ul style="list-style-type: none"> pentacyclic triterpene acid extracted from liquorice root antiphlogistic controls sebum release emulsifying sweetish component in dental products and in food industry
Arbutin Mat.No. 7011  	Arbutin Preservative: none Stabilizer: none	white crystalline powder with a typical smell	water soluble, slightly soluble in ethanol	1.0 - 5.0 %	<ul style="list-style-type: none"> active ingredient that is specifically suitable for skin lightening applications reduces hyperpigmentation: blocks epidermal melanin biosynthesis by inhibiting enzymatic oxidation of Tyrosine and Dopa promotes lightening and an even skin tone on all skin types diminishes senile lentigo reduces age spots minimizes liver spots reduces the degree of skin tanning after UV exposure

Product name	INCI name	Appearance	Solubility	Use concentration	Benefits
<p>Alpha-Arbutin</p> <p>Mat.No. 7328</p>  	<p>Alpha-Arbutin</p> <p>Preservative: none</p> <p>Stabilizer: none</p>	white crystals or crystalline powder	water soluble, soluble in methanol or alcohol (ethanol < 50 %), partially soluble in cold water	0.1 - 2.0 %	<ul style="list-style-type: none"> highly advanced active ingredient specifically suitable for skin lightening applications shows a 2 times stronger effect on tyrosinase activity than Arbutin reduces hyperpigmentation: blocks epidermal melanin biosynthesis by inhibiting enzymic oxidation of Tyrosine and Dopa promotes lightening and even skin tone on all skin types diminishes senile lentigo reduces age spots minimizes liver spots reduces the degree of skin tanning after UV exposure
<p>Ascorbyl Glucoside</p> <p>Mat.No. 7268</p>  	<p>Ascorbyl Glucoside</p> <p>Preservative: none</p> <p>Stabilizer: none</p>	white to cream powder	water soluble	0.1 - 2.0 %	<ul style="list-style-type: none"> stabilized derivative of Ascorbic Acid with superior formulation stability resists discoloration and degradation, while retaining all the biologic activity of L-Ascorbic acid decreases the generation of melanin by inhibition of tyrosinase activity acts as an antioxidant decreases wrinkle progression reduces fine lines improves skin lightening improves radiance and promotes an even skin tone increases collagen production reduces and repairs sun damage on the skin
<p>Ascorbyl Tetraisopalmitate</p> <p>Mat.No. 7374</p> 	<p>Ascorbyl Tetraisopalmitate</p> <p>Preservative: none</p> <p>Stabilizer: none</p>	colorless to pale yellow liquid	oil soluble	0.1 - 5 %	<ul style="list-style-type: none"> easy to formulate oil soluble derivative of the Vitamin C stable against heat and light decreases the generation of melanin by inhibition of tyrosinase activity acts as an antioxidant decreases wrinkle progression improves skin lightening improves radiance and an even skin tone increases collagen production protects the skin from environmental damages

Product name	INCI name	Appearance	Solubility	Use concentration	Benefits
Astaxanthin 5% L Mat.No. 7348  	Astaxanthin or Haematococcus Pluvialis Extract Preservative: none Stabilizer: none	red viscous oil	oil soluble, dispersible in water	0.01 - 0.1 %	<ul style="list-style-type: none"> • 100 % natural purified, oily concentrate of Astaxanthin extracted from algae (Haematococcus pluvialis) • represents a non-provitamin A carotenoid (xanthophyll) • acts as a natural sun blocker • acts as an antioxidant and rejuvenates damaged skin • supports an even skin tone by suppressing melanin synthesis • reduces freckles • smooths fine lines and reduces wrinkles • increases skin metabolism and moisturization level • represents a natural coloring agent
Azelaic Acid natural Mat.No. 7368  	Azelaic Acid Preservative: none Stabilizer: none	white powder	insoluble in water at RT, > 50°C 1 % soluble, 1 – 10 % soluble in ethanol, ethanol/water 1:1, pentylene glycol and glycerin at RT	Please check your local regulations. In Germany: 1 - 10 % (cosmetic products) 15 - 20 % (prescription drugs)	<ul style="list-style-type: none"> • saturated dicarboxylic acid with the formula HOOC(CH₂)₇COOH • serves as a „distress flare“ involved in defense responses after infection • helps to fight acne • normalizes sebum production • inhibits melanin synthesis • brightens the skin • enables an even skin tone • reduces inflammations • acts as an antioxidant • helps to fight rosacea
Bakuchiol CO₂ Mat.No. 7371  	Bakuchiol Preservative: none Stabilizer: none	light yellow to light brown clear oil	oil soluble, insoluble in water, up to 1 % soluble in glycerin, propylene glycol, pentylene glycol	0.3 - 1 %	<ul style="list-style-type: none"> • meroterpene, obtained from the babchi plant, as antioxidant and anti-inflammatory natural active ingredient to targets wrinkles and aging skin • true alternative to Retinol with no negative side effects and is better tolerated by the skin • reduces inflammations • acts antibacterially • enhances an even skin tone • reduces hyperpigmentation • stimulates collagen type I, II and IV • acts as an antioxidant • reduces wrinkles • minimizes photo-aging • helps to maintain sebum integrity • reduces acne • mechanisms for restorative and preventative anti-aging

Product name	INCI name	Appearance	Solubility	Use concentration	Benefits
<p>Bakuchiol natural</p> <p>Mat.No. 7346</p>  <p><i>Vegan</i></p>	<p>Bakuchiol</p> <p>Preservative: none</p> <p>Stabilizer: none</p>	light yellow to brownish liquid	oil soluble, insoluble in water, up to 1 % soluble in glycerin, propylene glycol, pentylene glycol	0.3 - 1 %	<ul style="list-style-type: none"> • meroterpene, obtained from the babchi plant, as antioxidant and anti-inflammatory natural active ingredient to targets wrinkles and aging skin • true alternative to Retinol with no negative side effects and is better tolerated by the skin • reduces inflammations • acts antibacterial • enhances an even skin tone • reduces hyperpigmentation • stimulates collagen type I, II and IV • acts as an antioxidant • reduces wrinkles • minimizes photo-aging • helps to maintain sebum integrity • reduces acne • mechanisms for restorative and preventative anti-aging
<p>Bamboo Charcoal paste (D0.9)</p> <p>Mat.No. 7358</p>  <p><i>Vegan</i></p>	<p>Charcoal Powder, Aqua</p> <p>Preservative: none</p> <p>Stabilizer: none</p>	black powder, odourless	insoluble in water, organic solvents and oils	0.5 - 5 %	<ul style="list-style-type: none"> • water dispersed bamboo charcoal powder (D50 = 0.9) with all the advantages of general bamboo charcoal powder • reduced formation of dust during production and simplified dispersion of the raw material due to its water content • adsorbs toxins, impurities, and harmful substances • purifies the skin • exfoliates the skin • smoothes the skin • removes unpleasant odors • stimulates cell growth • cleans oily and acne prone skin
<p>Bamboo Charcoal powder</p> <p>Mat.No. 7287</p>     <p><i>Vegan</i></p>	<p>Charcoal Powder</p> <p>Preservative: none</p> <p>Stabilizer: none</p>	black powder, odourless	insoluble in water, organic solvents and oils	0.01 - 1.5 %	<ul style="list-style-type: none"> • made from maso bamboo timber • detoxifying agent • adsorbs excessive sebum • exfoliates dead skin cells • stimulates cell growth leading to supple, delicate and smooth skin • granules >3.8 µm (less than 50 %)

Product name	INCI name	Appearance	Solubility	Use concentration	Benefits
<p>Baobab (Salala) Exfoliant 500*</p> <p>Mat.No. 7376</p>  <p><i>Vegan</i></p>	<p>Adansonia Digitata Seed Oil</p> <p>Preservative: none</p> <p>Stabilizer: none</p>	brown powder	insoluble	6 - 10 %	<ul style="list-style-type: none"> • exfoliant made from the press cake of Adansonia digitata seeds (by-product of oil production) • upcycling process of baobab (Moyo) kernel oil production • particle size 100 - 500 µm (>= 95 %), 0 - 100 µm (<= 10 %) • acts as a physical exfoliant • removes dead and dry skin cells • helps to soften the skin and open clogged pores • improves skin texture and promotes an even skin tone • stimulates blood circulation and promotes a naturally rosy complexion
<p>Baobab (Salala) Exfoliant 1000*</p> <p>Mat.No. 7377</p>  <p><i>Vegan</i></p>	<p>Adansonia Digitata Seed Oil</p> <p>Preservative: none</p> <p>Stabilizer: none</p>	brown powder	insoluble	6 - 10 %	<ul style="list-style-type: none"> • exfoliant made from the press cake of Adansonia digitata seeds (by-product of oil production) • upcycling process of baobab (Moyo) kernel oil production • particle size 500 - 1000 µm (>= 95 %), 0 - 500 µm (<= 10 %) • acts as a physical exfoliant • removes dead and dry skin cells • helps to soften the skin and open clogged pores • improves skin texture and promotes an even skin tone • stimulates blood circulation and promotes a naturally rosy complexion
<p>Baobab Seed Oil (Moyo) refined*</p> <p>Mat.No. 7337</p>  <p><i>Vegan</i></p>	<p>Adansonia Digitata Seed Oil</p> <p>Preservative: none</p> <p>Stabilizer: none</p>	clear to slightly yellow oil	oil soluble in cosmetic esters and vegetable oils	8 - 100 %	<ul style="list-style-type: none"> • Baobab kernel oil is a cold-pressed oil extracted from the seeds of the Adansonia digitata tree. • refined oil. • balanced ratio of palmitic acid (~25 %), oleic acid (~35 %), and linoleic acid (~30 %). • significant amounts of β-sitosterol and γ-tocopherol. • rich in vitamins A, E, and F • acts as a moisturizer deep into the skin layers • reduces TEWL • excellent active ingredient for dry, damaged, and flaky skin • acts as an antioxidant • certified as organic according to Lacon guidelines

* = not available in every country

Product name	INCI name	Appearance	Solubility	Use concentration	Benefits
Biotin USP Mat.No. 7253 	Biotin Preservative: none Stabilizer: none	white or off white crystalline powder with typical odour	soluble in water and glycerin up to 0.06 % (50°C)	0.003 - 0.01 %	<ul style="list-style-type: none"> • synthetic production process to obtain biotin • improves tear strength of hair • component of many enzymes in our body • Vitamin H • smoothing the skin • strengthening the hair
NEW alpha-Bisabolol natural (A) Mat.No. 7402 	Bisabolol Preservative: none Stabilizer: none	clear, colourless liquid, with a weak, characteristic odour	oil soluble	0.1 - 0.5 %	<ul style="list-style-type: none"> • produced from the wood of the South American Candeia tree • anti-irritant • support of wound healing • antimicrobial • bacteriostatic • deodorant • content of natural bisabolol: min. 95 %
alpha-Bisabolol natural (C) Mat.No. 7237 	Bisabolol Preservative: none Stabilizer: none	clear, colourless liquid, with a weak, characteristic odour	oil soluble	0.1 - 0.5 %	<ul style="list-style-type: none"> • produced from the wood of south america candeia tree • anti-irritant • support of wound healing • antimicrobial • bacteriostatic • deodorant • content of natural bisabolol: min. 95 %
alpha-Bisabolol organic (A) Mat.No. 7290 	Bisabolol Preservative: none Stabilizer: none	colourless to clear yellow, limpid, oily liquid with a characteristic odour	oil soluble	0.1 - 0.5 %	<ul style="list-style-type: none"> • produced from the wood of south america candeia tree • compliant with NOP/USDA standards • anti-irritant • support of wound healing • antimicrobial • bacteriostatic • deodorant • content of natural bisabolol: min. 95 %
Bromelain (100) Mat.No. 7314 	Bromelain Preservative: none Stabilizer: Maltodextrin 85 %	off-white or light yellow powder with a characteristic odour	water soluble	0.1 - 1 %	<ul style="list-style-type: none"> • hydrolytic protease extracted from the stem of pineapple, also known as pineapple enzyme, that hydrolyzes peptides into low molecular weight peptides, amide groups and esters • enzyme activity minimum 100.000 U/g • works selectively on aged skin cells as peel-off substrate • reduces freckles and enhances an even skin tone • reduces inflammations • reduces UV-induced skin darkening • stimulates cell growth • shows antifungal activity • enhances skin softness and tenderness • can also be used as food additive

Product name	INCI name	Appearance	Solubility	Use concentration	Benefits
Bromelain (600) Mat.No. 7312  	Bromelain Preservative: none Stabilizer: Maltodextrin	off-white or light yellow powder with a characteristic odour 30 %	water soluble	0.1 - 1 %	<ul style="list-style-type: none"> hydrolytic protease extracted from the stem of pineapple, also known as pineapple enzyme, that hydrolyzes peptides into low molecular weight peptides, amide groups and esters enzyme activity minimum 600.000 U/g works selectively on aged skin cells as peel-off substrate reduces freckles and enhances an even skin tone reduces inflammations reduces UV-induced skin darkening stimulates cell growth shows antifungal activity enhances skin softness and tenderness can also be used as food additive
Buriti Oil (virgin) Mat.No. 7315  	Mauritia Flexuosa Fruit Oil Preservative: none Stabilizer: none	reddish liquid	oil soluble	0.2 - 10 %	<ul style="list-style-type: none"> fruit oil extracted from the Buriti fruit pulp with a strong orange-red colour, indicating the high level of carotenoids (highest concentration of beta carotene found in nature) rich in fatty acids, especially oleic acid and natural tocopherol acts as an antioxidant reduces UV-induced skin damages protects the epidermal lipids from oxidation enhances skin elasticity decreases skin dryness due to sun exposure supports regeneration of lipids in stratum corneum optimizes skin feel and softness improves SPF in cosmetic applications reduces photoaging
Butyl Resorcinol Mat.No. 7261  	4-Butylresorcinol Preservative: none Stabilizer: none	white to beige or pink powder or crystals	soluble in organic solvents, in water poorly soluble	0.05 - 1.0 %	<ul style="list-style-type: none"> synthetic production process to obtain Butyl Resorcinol very effective skin whitening active for reduction of age spots inhibits tyrosinase and peroxidase inhibits melanin production

Product name	INCI name	Appearance	Solubility	Use concentration	Benefits
<p>Cacay Oil</p> <p>Mat.No. 7392</p>  	<p>Caryodendron Orinocense Seed Oil</p> <p>Preservative: none</p> <p>Stabilizer: Tocopherol 0.1 %</p>	golden yellow oil	oil soluble	5 - 100 %	<ul style="list-style-type: none"> • derived from the seeds of the Caryodendron orinocense tree, also known as Cacay tree • rich in vitamins, antioxidants, and essential fatty acids • potent elixir for skin and hair nourishment • helps maintain youthful-looking skin • reduces wrinkles • improves skin elasticity • smooths the skin • acts as an antioxidant • enhances skin hydration • reduces TEWL • enhances skin feel
<p>Carboxymethyl Glucan Na-Salt*</p> <p>Mat.No. 6053</p>  	<p>Sodium Carboxymethyl Betaglucan</p> <p>Preservative: none</p> <p>Stabilizer: none</p>	white to slightly yellowish fine powder	water soluble	0.01 - 0.3 %	<ul style="list-style-type: none"> • extracted from the cell wall of baker's yeast • protection against UV damage to the skin • immunomodulating • anti-acne preparations • strengthening of the body's own defense mechanisms • acceleration of wound healing • moisturizer • reduces TEWL
<p>NEW Carnosine</p> <p>Mat.No. 7388</p>  	<p>Carnosine</p> <p>Preservative: none</p> <p>Stabilizer: none</p>	off-white or white powder	soluble in water at room temperature, soluble in Pentylene Glycol or Glycerin when heated to 60°C	0.1 - 1 % daily use 1 - 2 % special use	<ul style="list-style-type: none"> • Carnosine, β-alanyl-L-histidine, is a water-soluble biological dipeptide composed of two amino acids β-alanine and L-histidine • captures oxidative free radicals and effectively prevents the oxidation of fat (inhibits the generation of unsaturated aldehydes) • has a synergistic antioxidant effect with vitamin E • has an anti-glycation effect and prevents the formation of Advanced Glycation Endproducts (AGEs), this glycation damages the tissue fibers and is an important factor in skin aging • inhibits lipid oxidation catalyzed by metal ions, hemoglobin, lipase and active oxygen, replacing traditional BHA and TBHQ antioxidants • inhibits the activity of tyrosinase and brightens the skin • shows extremely high thermal stability, at 120 °C for 20 minutes

Product name	INCI name	Appearance	Solubility	Use concentration	Benefits
Chlorophyllin Mat.No. 7357  	Chlorophyllin-Copper Complex or CI 75810 Preservative: none Stabilizer: none	dark green granules	soluble in water, ethanol and glycerin; insoluble in oil	0.001 - 10 %	<ul style="list-style-type: none"> • is a metalloporphyrin extracted from Ginkgo biloba leaf • natural pigment (CI 75810) • acts as an antioxidant • represents a natural colouring agent • protects the skin from environmental damages • reduces inflammations • acts as a deodorant • accelerates wound healing • acts anti-microbial • prevents bleeding issues (unique active for toothpaste)
Clodessine* Mat.No. 7285 	Phosphate Buffered Saline, sh-Nonapeptide-4 Preservative: Phenoxyethanol 0.9 % Stabilizer: Phosphate Buffered Saline 99.0 %	clear, colourless solution	soluble in water and mixtures of ethanol, IPA, propylene glycol, and butylene glycol with water 1:1, insoluble in solvents immiscible with water	0.1 - 5 %	<ul style="list-style-type: none"> • fragment of the youth hormone Klotho • extends the youthfulness and lifespan of skin cells • reduces wrinkles by more than 50% (measured with 3D Life Viz Camera) • increases skin elasticity by more than 100% • boosts natural defense and detoxification mechanisms • improves skin structure and texture • reduces the number and size of skin pores
Clodessine P* Mat.No. 7230 	Phosphate Buffered Saline, Phenethyl Alcohol, sh-Nona-peptide-4 Preservative: none Stabilizer: Phosphate Buffered Saline 99.0 % Phenethyl Alcohol 0.9 %	clear, colourless solution	soluble in water and mixtures of ethanol, IPA, propylene glycol, and butylene glycol with water 1:1, insoluble in solvents immiscible with water	0.1 - 5 %	<ul style="list-style-type: none"> • fragment of the youth hormone Klotho • extends the youthfulness and lifespan of skin cells • reduces wrinkles by more than 50% (measured with 3D Life Viz Camera) • increases skin elasticity by more than 100% • boosts natural defense and detoxification mechanisms • improves skin structure and texture • reduces the number and size of skin pores
Coenzyme Q 10 Mat.No. 7258  	Ubiquinone Preservative: none Stabilizer: none	yellow to orange crystalline powder	oil soluble	0.01 - 0.2 %	<ul style="list-style-type: none"> • biotechnological process with micro-organisms found in nature to obtain Coenzyme Q 10 • free-radical scavenger • antioxidant • smoothing the skin • reduction of wrinkle depths

Product name	INCI name	Appearance	Solubility	Use concentration	Benefits
<p>Cupuacu Butter (deodorized)</p> <p>Mat.No. 7316</p>  <p><i>Vegan</i></p>	<p>Theobroma Grandiflorum Seed Butter</p> <p>Preservative: none</p> <p>Stabilizer: none</p>	white to beige butter with characteristic smell	oil soluble	2 - 5 %	<ul style="list-style-type: none"> made from the seeds of the superfruit Theobroma grandiflorum, a jungle plant from the Brazilian Amazon region, related to cacao (Theobroma cacao) contains a balanced ratio between saturated and unsaturated fatty acids, the most important are oleic acid (Omega-9), stearic acid, arachidic and palmitic acid has a melting point of 30 °C with quick absorption and a pleasant touch other valuable ingredients are Theacrine, Vitamin C, A, various B Vitamins, iron, calcium, and selenium shows extremely high water absorption capacity of 440 %, thus is an excellent plant alternative to Lanolin 250 %! regulates the balance and activity of lipids in stratum corneum reduces inflammations helps to repair the skin barrier and reduces skin dryness facilitates natural elasticity of the skin helps prevent wrinkles shows filmogen properties improves tensile strength of bleached hair
<p>NEW DermaRx® FSE HH*</p> <p>Mat.No. 7430</p>	<p>Aqua, Sargassum Vulgare Extract, Saccharomyces Ferment Filtrate</p> <p>Preservative: none</p> <p>Stabilizer: 1,2-Hexanediol 1 - 2 % Hydroxyacetophenone 0.25 - 0.75 %</p>	yellow to brown clear to slightly hazy liquid	water soluble; include below 50 °C	0.5 - 2 %	<ul style="list-style-type: none"> stimulates repair of UV-damaged DNA (in-vitro & ex-vivo) strong antioxidant protection inhibits COX-2 activity for inflammatory protection inhibits the inflammatory effects of urban air pollution modulates expression of 21 genes important for healthy skin at the molecular level
<p>Dipotassium Glycyrrhizate</p> <p>Mat.No. 7196</p>  <p><i>Vegan</i></p>	<p>Dipotassium Glycyrrhizate</p> <p>Preservative: none</p> <p>Stabilizer: none</p>	white or almost white powder with a sweet taste	water soluble	0.2 - 2 %	<ul style="list-style-type: none"> pentacyclic triterpene acid extracted from liquorice root antiphlogistic controls sebum release surface active emulsifier

Product name	INCI name	Appearance	Solubility	Use concentration	Benefits
<p>NEW Ectoine</p> <p>Mat.No. 7390</p> 	<p>Ectoin</p> <p>Preservative: none</p> <p>Stabilizer: none</p>	white or almost white crystal or powder	up to 2 % soluble in cold water, up to 7 % soluble in water at 40°C, up to 2 % soluble in glycerol at 70°C	0.1 - 7 %	<ul style="list-style-type: none"> Ectoine is derived from extremophilic bacteria that live in extreme environments such as salt lakes or deserts, they produce Ectoine as a protective mechanism against stress factors such as high salt concentrations, extreme temperatures and UV radiation Ectoine is an osmoprotectant that protects cells from osmotic stress reduces TEWL (transdermal water loss) and provides long-lasting moisturization reduces inflammation and relieves dry, sensitive skin improves skin barrier function protects cells from UV damage and repairs post-sun damage has anti-allergic and soothing properties promotes collagen synthesis and anti-aging brighten skin colour
<p>Elaself[®]*</p> <p>Mat.No. 7281</p> 	<p>Phosphate Buffered Saline, sh-Pentapeptide-3</p> <p>Preservative: Phenoxyethanol 0.9 %</p> <p>Stabilizer: Phosphate Buffered Saline 99.0 %</p>	clear, colourless solution	water soluble, soluble in a mixture of ethanol, isopropanol, propylene glycol, butylene glycol with water 1:1	0.1 - 5 %	<ul style="list-style-type: none"> Elaself is a pentapeptide, a fragment of microfibrillar associated protein 4 (MFAP4). Elaself stimulates MFAP4 synthesis. MFAP4 plays a key role in the formation of elastin fibers improves skin elasticity stimulates collagen I formation at the mRNA level by stimulating collagen production and improving elasticity, it counteracts the skin aging process significant reduction of wrinkles in vivo
<p>Elaself[®] P*</p> <p>Mat.No.7306</p> 	<p>Phosphate Buffered Saline, Phenethyl Alcohol, sh-Pentapeptide-3</p> <p>Preservative: none</p> <p>Stabilizer: Phosphate Buffered Saline 99.0 % Phenethyl Alcohol 0.9 %</p>	clear, colourless solution	water soluble, soluble in a mixture of ethanol, isopropanol, propylene glycol, butylene glycol with water 1:1	0.1 - 5 %	<ul style="list-style-type: none"> Elaself is a pentapeptide, a fragment of microfibrillar associated protein 4 (MFAP4). Epidermal Growth Factor L Mat.No. 7347 	Aqua, Glycerin, Mannitol, sh-Oligopeptide-1 Preservative: Phenoxyethanol 0.45 % Stabilizer: Ethylhexylglycerin 0.05 %	clear, colourless liquid	water soluble, soluble in ethanol, propylene glycol, glycerin, pentylene glycol, Dermosoft 1388	0.2 - 20 %	<ul style="list-style-type: none"> • solution of synthetic human growth factor sh-EGF • active component, sh-Oligopeptide-1, is produced by modern bioengineering methods like fermentation, using glucose as raw material • same molecular structure and biological activity as EGF secreted naturally by the human body • promotes dermis fibroblasts • increases skin elasticity • promotes cell regeneration and cell repair • reduces wrinkles • smooths the skin • strengthens the skin barrier against external harmful substances • prevents scar formation after sun burn or acne • enhances microcirculation
NEW Epidermal Growth Factor L CEG Mat.No. 7347 	Aqua, Glycerin, Mannitol, sh-Oligopeptide-1 Preservative: none Stabilizer: Caprylyl Glycol 0.1 - 0.5 % Ethylhexylglycerin 0.05 - 0.1 %	clear, colourless liquid	water soluble, soluble in ethanol, propylene glycol, glycerin, pentylene glycol, Dermosoft 1388	0.2 - 20 %	<ul style="list-style-type: none"> • synthetic human growth factor (sh EGF) produced via modern biotech fermentation • identical molecular structure and biological activity to natural human EGF • activates fibroblasts and supports cell regeneration and repair. • improves skin elasticity and reduces wrinkles • strengthens the skin barrier for better protection • promotes an even skin tone and reduces scarring from acne or sunburn • supports microcirculation
Ethyl Ascorbic Acid Mat.No. 7246  	3-O-Ethyl Ascorbic Acid Preservative: none Stabilizer: none	white to off-white crystal powder	water soluble	0.1 - 3.0 %	<ul style="list-style-type: none"> • etherified Ascorbic Acid derivative, one of the most stable derivatives of ascorbic acid known • penetrates into the skin and shows better efficacy than pure Ascorbic Acid • decreases the generation of melanin by inhibition of tyrosinase activity • acts as an antioxidant • decreases wrinkle progression • reduces fine lines • improves skin lightening • improves radiance and even skin tone • increases collagen production • reduces and repairs sun damages on the skin

Product name	INCI name	Appearance	Solubility	Use concentration	Benefits
<p>NEW EXO EVin VITEX</p> <p>Mat.No. 7424</p>  <p><i>Vegan</i></p>	<p>Aqua, Glycerin, Vitex Agnus-Castus Callus Extracellular Vesicles or Vitex Agnus-Castus Extract</p> <p>Preservative: none</p> <p>Stabilizer: none</p>	Slightly thick colorless liquid	water soluble	1 - 5 % (Dilution 1:100)	<ul style="list-style-type: none"> • plant exosomes from chaste tree cell cultures • 50 - 160 nm for optimal skin interaction • antioxidant protection • anti-inflammatory & balancing • supports regeneration & vitality • improves skin structure & firmness • revitalizes skin appearance
<p>NEW Ficin (100)</p> <p>Mat.No. 7407</p>	<p>Ficin</p> <p>Preservative: none</p> <p>Stabilizer: none</p>	white or light yellow powder	water soluble	0.01 - 2 %	<ul style="list-style-type: none"> • natural, plant derived proteolytic enzyme • enzyme activity $\geq 100\ 000$ U/g • supports protein hydrolysis at the skin surface • gentle enzymatic exfoliation of aged keratinocytes • supports skin renewal and surface refinement • supports a more even and radiant skin appearance • soothing and skin balancing properties
<p>Glabridin 95</p> <p>Mat.No. 7372</p>  <p><i>Vegan</i></p>	<p>Glycyrrhiza Glabra Root Extract or Glabridin</p> <p>Preservative: none</p> <p>Stabilizer: none</p>	off-white powder	soluble in glycols	0.03 - 0.05 %	<ul style="list-style-type: none"> • extract from glycyrrhiza glabra (licorice roots) • contains min. 95 % glabridin • skin lightening • reduces age spots • soothing • antioxidant • anti-microbial
<p>NEW Glucose Oxidase</p> <p>Mat.No. 7409</p>  <p><i>Vegan</i></p>	<p>Glucose Oxidase</p> <p>Preservative: none</p> <p>Stabilizer: Dextrin 80 - 90 %</p>	light yellow powder	water soluble	0.01 – 0.1 % add below 30 °C	<ul style="list-style-type: none"> • improves skin feel • mild skin conditioning • supports microbial control • multifunctional ingredient

Product name	INCI name	Appearance	Solubility	Use concentration	Benefits
<p>NEW Glucosylrutin</p> <p>Mat.No. 7393</p>  <p><i>Vegan</i></p>	<p>Glucosylrutin</p> <p>Preservative: none</p> <p>Stabilizer: Glucose 1%</p>	yellow powder	soluble in water; slightly soluble in Ethanol (96%)	0.01 - 0.05 %	<ul style="list-style-type: none"> • protection against UV-induced skin damage • reduces redness and irritation • anti-aging effect through protection against free radicals • soothing for sensitive skin • reduces the risk of sun allergy symptoms (PLE) through antioxidant protection
<p>Glutathione</p> <p>Mat.No. 7373</p>   <p><i>Vegan</i></p>	<p>Glutathione</p> <p>Preservative: none</p> <p>Stabilizer: none</p>	white crystalline powder	water soluble	0.5 - 5 %	<ul style="list-style-type: none"> • first discovered in the ethanol extract of baker's yeast • most abundant thiol in animal cells • synthesized in the human body • reduces cellular oxidative stress • helps to maintain an even skin tone • lightens the skin • acts as an antioxidant • fights photo-aging • helps to protect the skin from environmental damages • reduces inflammations • boosts natural detoxification system
<p>Green Tea Extract (EGCG) 90</p> <p>Mat.No. 7344</p>  <p><i>Vegan</i></p>	<p>Epigallocatechin Gallate</p> <p>Preservative: none</p> <p>Stabilizer: none</p>	fine white powder	soluble in water, glycerin, propylene glycol and ethanol	0.05 - 0.5 %	<ul style="list-style-type: none"> • physically purified natural green tea leaf extract • EGCG content higher than 90 % • also suitable for oral applications and as food supplement • acts as an antioxidant • reduces inflammations • soothes sunburns • helps to prevent wrinkles • helps to prevent photo aging • helps to maintain skin elasticity based on the collagen network • stimulates proliferation and cell differentiation

Product name	INCI name	Appearance	Solubility	Use concentration	Benefits
Hydrolyzed Elastin powder Mat.No. 7323 	Hydrolyzed Elastin Preservative: none Stabilizer: none	light yellow powder	water soluble	0.5 - 5.0 %	<ul style="list-style-type: none"> • low molecular weight Elastin with >= 80 % purity, that is extracted from pork tendon by biotechnological methods • amphipathic, i.e., hydrophilic & lipophilic • shows a build-up effect on the hair • acts as a natural conditioning agent and strengthens the hair • shows a significant delay of swelling degree on hair during alkaline process (perms and dying) • reduces breakage of hair • improves skin elasticity • helps to prevent dry skin • reduces wrinkles and delays aging
HyVia™ (Chia Seed Extract)* Mat.No. 7319 	Salvia Hispanica Seed Oil Preservative: none Stabilizer: none	off-yellow to yellow oil	miscible with fats, oils, alcohols, hydrocarbons and ethers; insoluble in water	0.1 - 0.5 %	<ul style="list-style-type: none"> • extracted from chia seeds • rich in fatty acids like omega-3 fatty acids (α-linolenic acid) and omega-6 fatty acids (linoleic acid) • 100 % inhibition of PME-1 (protein phosphatase methylesterase-1) and fully activates PP2A (protein phosphatase 2) • boosts aquaporin-3 (AQP3) and increases water transport and hydration in the human skin epidermis • skin barrier protection (decreased TEWL) • antimicrobial against Staphylococcus aureus • supports lipolysis in human adipocytes • protects against blue light induced cell death • moisturizer
Kalahari Melon (Nakisa) Exfoliant 500* Mat.No. 7378   	Citrullus lanatus (Watermelon) Fruit Extract Preservative: none Stabilizer: none	brown powder	insoluble	6 - 10 %	<ul style="list-style-type: none"> • exfoliant made from the press cake of Citrullus lanatus seeds (by-product of oil production) • upcycling process of Kalahari melon seed oil (Elula) production • particle size > 500 μm (< 5 %), <= 500 μm (>= 95 %), <= 100 μm (<= 10 %) • acts as a physical exfoliant • removes dead and dry skin cells • helps to soften the skin and open clogged pores • improves skin texture and promotes an even skin tone • stimulates blood circulation and promotes a naturally rosy complexion

<p>Turmeric Oil (CO₂)</p> <p>Mat.No. 7250</p> 	<p>Curcuma Longa Root Extract</p> <p>Preservative: none</p> <p>Stabilizer: none</p>	yellow to orange, clear to slight turbid liquid oil	oil soluble	0.05 - 2.0 %	<ul style="list-style-type: none"> • CO₂ extracted essential oil out of curcuma longa root • contains turmerone • soothes skin • antioxidant reactive oxygen species (ROS) • gives an even skin-tone and glow to skin • useful in aromatherapy for relaxing, balancing and stimulating
<p>Ursolic Acid Na-Salt natural</p> <p>Mat.No. 7278</p> 	<p>Sodium Ursolate, Sodium Oleanolate</p> <p>Preservative: none</p> <p>Stabilizer: none</p>	white powder	soluble in pentylene glycol and propylene glycol	0.1 - 0.3 %	<ul style="list-style-type: none"> • mixture of Ursolic acid Sodium Salt and Oleanolic acid Sodium Salt (pentacyclic triterpenoid acids) • minimizes photo-aging • enhances skin elasticity • acts as an antioxidant • reduces inflammation • stabilizes liposome membranes • shows anti-tumor activity • shows anti-microbial activity • reduces wrinkles
<p>ViaFerm® White Shiitake*</p> <p>Mat.No. 7274</p>	<p>Lentinus Edodes Mycelium Extract</p> <p>Preservative: Phenoxyethanol 0.5 %</p> <p>Stabilizer: Caprylyl Glycol 0.5 %</p>	light yellow amber liquid with characteristic odour	water soluble	2.0 %	<ul style="list-style-type: none"> • biotechnological derived extract from Shiitake mushroom ferment • skin lightening • against age spots • degrades melanin • anti-inflammatory
<p>ViaPure® Andrographis*</p> <p>Mat.No. 7272</p> 	<p>Andrographis Paniculata Leaf Extract</p> <p>Preservative: none</p> <p>Stabilizer: none</p>	white crystalline powder with characteristic odour	soluble in glycols	0.1 - 0.2 %	<ul style="list-style-type: none"> • extract from the leaves of <i>Andrographis paniculata</i> • with min. 95 % of andrographolides • anti-inflammatory • soothing • skin lightening • against dark circles • against oxidative stress
<p>ViaPure® Boswellia Green*</p> <p>Mat.No. 7308</p> 	<p>Boswellia Serrata Resin Extract</p> <p>Preservative: none</p> <p>Stabilizer: none</p>	pale yellow to off white powder with characteristic odour	oil soluble	0.1 - 0.2 %	<ul style="list-style-type: none"> • lipophilic extract from <i>Boswellia serrata</i> resin • contains min. 65 % boswellic acids • soothing • firming • inhibits elastase • improves skin barrier function

Product name	INCI name	Appearance	Solubility	Use concentration	Benefits
ViaPure[®] Citrus* Mat.No. 7273 	Citrus Grandis Peel Extract Preservative: none Stabilizer: none	yellow powder with characteristic odour	soluble in ethanol	0.1 - 0.2 %	<ul style="list-style-type: none"> • extract from paring of young grapefruits • contains min. 95 % apigenin • protects body's own hyaluronic acid • anti-inflammatory • repair effect • protects DNA from UV-damage
ViaPure[®] Coleus* Mat.No. 7269 	Coleus Barbatus Root Extract Preservative: none Stabilizer: none	white powder with characteristic odour	soluble in glycols	0.05 - 0.1 %	<ul style="list-style-type: none"> • extract from the roots of coleus barbatus • contains min. 97 % forskolin • improves barrier repair and barrier function • contributes to healthier stratum corneum • prevents UVB and DNA damage • stimulates DNA repair • anti-inflammatory • supports lipolysis in human adipocytes
44 ViaPure[®] Hops* Mat.No. 7271 	Humulus Lupulus Extract, Linoleic Acid, Linolenic Acid Preservative: none Stabilizer: none	dark amber oil with sharp pungent odour	oil soluble	1.0 %	<ul style="list-style-type: none"> • CO₂ extract from humulus lupulus (hops) • contains min. 25 % di-hydroiso-α-humulones • prevents buildup of spider veins • soothing • prevents dark circles
ViaPure[®] Licorice White* Mat.No. 7276 	Glycyrrhiza Glabra Root Extract Preservative: none Stabilizer: none	beige powder with slight odour	soluble in glycols	0.03 - 0.05 %	<ul style="list-style-type: none"> • extract from glycyrrhiza glabra (licorice roots) • contains min. 95 % glabridin • skin lightening • reduces age spots • soothing • antioxidant • anti-microbial
ViaPure[®] Poria* Mat.No. 7270 	Poria Cocos Extract Preservative: none Stabilizer: none	light yellow powder with characteristic odour	soluble in pentylene and butylene glycol	0.1 - 0.2 %	<ul style="list-style-type: none"> • extract from poria cocos • contains triterpenoids (lanostane type) • anti-inflammatory • anti-edematous • soothing • decreases redness • decreases puffiness • for sensitive and atopic skin

Product name	INCI name	Appearance	Solubility	Use concentration	Benefits
ViaPure® Rice* Mat.No. 7282  	Oryza Sativa Bran Extract Preservative: none Stabilizer: none	white powder with a typical smell	water soluble	max. 1.0 %	<ul style="list-style-type: none"> dried water extract of rice bran contains min. 85 % phytic acid (known as inositol hexaphosphate, IP6) more effective exfoliator than glycolic acid increases cell turnover desquamation skin-tone lightening antioxidant chelation
Vitamin A Acetate Mat.No. 7309 	Retinyl Acetate Preservative: none Stabilizer: none	straw yellow crystal	soluble in most organic solvents (acetone, chloroform, ethanol, iso-propanol) and in fats or oils (750g/100 mL); insoluble in water and glycerol	body lotions max. 0.05 % hand and face creams max. 0.3 %	<ul style="list-style-type: none"> also named retinyl acetate naturally occurring ester of Vitamin A to increase the stability acetic acid was bound to the easily degradable Vitamin A reduces inflammations helps to fight acne reduces wrinkles acts as an antioxidant increases skin thickness increases cell growth helps to maintain sebum integrity
NEW Volpura® EPO* Mat.No. 7432 	Echinacea Purpurea Root Extract, Squalane, Caprylic/ Capric Triglyceride Preservative: none Stabilizer: none	yellow to light green liquid	oil soluble, insoluble in water	1 - 3 %	<ul style="list-style-type: none"> stimulates adipogenesis via PPAR-γ activation increases size and lipid content of adipocytes improves appearance of wrinkles (face & hands) enhances skin firmness and elasticity clinically proven: +44 % elasticity, +14 % firmness delivers a visible volumizing & plumping effect creates a "Natural Filler" look reduces inflammation (COX-2, TNF-α inhibition)
Ximenia Seed Oil (Mideka) refined* Mat.No. 7331  	Ximenia Americana Seed Oil Preservative: none Stabilizer: none	clear yellow oil	oil soluble in cosmetic esters and vegetable oils	7 - 50 %	<ul style="list-style-type: none"> Ximenia kernel oil is a cold-pressed oil extracted from the seeds of the ximenia fruit, which comes from the <i>Ximenia americana</i> tree. refined oil rich in monounsaturated fatty acids, especially ximenic acid (5–15%) and its derivatives significant amounts of tocotrienol, lupeol, β-amyrin, and β-sitosterol perfectly suited for anti-pollution applications acts as a stimulator of microcirculation has a soothing and nourishing effect reduces collagen degradation induced by oxidative stress

Product name	INCI name	Appearance	Solubility	Use concentration	Benefits
<p>Zinnerine*</p> <p>Mat.No. 7356</p>  <p><i>Vegan</i></p>	<p>Aqua, Pentylene Glycol, Hexapeptide-2, Zinc Sulfate</p> <p>Preservative: none</p> <p>Stabilizer: Pentylene Glycol</p>	<p>clear to slightly cloudy, colourless to yellowish solution</p>	<p>water soluble</p>	<p>0.1 - 1 %</p>	<ul style="list-style-type: none"> • anti-acne zinc hexapeptide complex has increased retinol-like effects • is a safe alternative to retinol with similar or better effects • reduces acne lesions • reduces sebum production • has a soothing effect and reduces skin redness • inhibits hyperkeratinization • has an antimicrobial effect (Cutibacterium acnes) • has an anti-inflammatory effect • reduces wrinkles and improves skin elasticity • stimulates collagen I gene expression • counteracts the cytotoxicity of zinc • reduces TEWL and supports the skin barrier function
